

OVERVIEW – DESIGN OF WORK EXPERIENCE

Learn more at www.designofworkexperience.com

Design of Work Experience (DOWE) is a strengths-based, co-creation concept/model/framework that provides the much needed step-by-step for designing, implementing, and sustaining organizational culture and employee experiences that are customized to their intended context. The DOWE process is made of four components: DESIGN and CHANGE processes enabled by the use and development of CAPABILITY and ENGAGEMENT throughout.
